Re: **Scott Rhodes**
Rhodes Custom Pools Inc.

To Whom It May Concern:

Newport Pacific contracted with Scott Rhodes of Rhodes Custom Pools Inc. to retrofit the pools and spas at several of our Los Angeles County properties to bring them into compliance with the Gramme Baker Act. In addition to the retrofitting Rhodes Pools was also contracted to perform additional needed repairs, which along with the retrofits, were all done in a professional and timely manner for the opening of pool season.

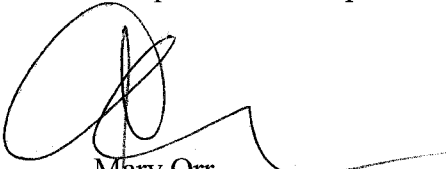

Scott's bids were not only fair for the work being done; he actually lowered the price on one property after the bid had been accepted saving us money. While working on the properties he spent time with the on site Manager's overseeing the improvements giving advice on what they could correct, rather than giving us a bid to do the work himself, further saving us money. Scott is exceptional at communicating with all the Property Managers on what is needed at their properties and the progress of improvements and/or repairs.

Scott's quality customer service did not end with the on site managers. His service extended forward to the State and County authorities as he worked diligently with these agencies to acquire and complete the permit process and fulfill our obligations with these entities.

We will definitely use Rhodes Custom Pools Inc. for future work due to the excellent customer service and work quality we have received.

Sincerely,

Newport Pacific Capital Company, Inc
